

20 JAN 1982

MEMORANDUM FOR: Chief, Policy and Plans Group

STAT FROM:

[REDACTED]
Deputy Director of Security (P&M)

SUBJECT: Implementation of NSDD-19

1. The Acting Director of Security advised that he had discussions with Mr. Fitzwater, Deputy Director for Administration, and we should proceed along the following lines:

a. The Office of Security should assume action responsibility on preparing implementing instructions for CIA -- the first requirement under "Implementation."

STAT b. The DCI Security Committee should assume action responsibility on preparing draft procedures for the Intelligence Community -- the second requirement under "Implementation." [REDACTED] may be working on this but we should confirm it.

STAT c. Within 48 hours we should hold a meeting with the Director of Security and other concerned officers, in order to sort out the problem, and make sure we are all going in the right direction. (We might invite [REDACTED] because of some conflicting signals out of the White House.)

d. There should be a close look at the new National Security Council cover sheet, with the agreement to submit to polygraph. We might need to check on the flow of documents to and from the Agency which would necessitate such a cover sheet.

2. I have a call in to [REDACTED] because he earlier felt the Agency had little or nothing to do on the implementation issue. We should review all the pertinent "regulations" that he would propose sending to the National Security Council. STAT

3. I believe the Director of Security sees a greater need for a focal point or closer coordination between OS and Public Affairs on press contacts.

[REDACTED] STAT
